

Letter of Reference

WORKING FOR HGDS IN TERMS OF INSTALLATION OF ELECTRICAL COMPONENTS AND COMMISSIONING SUPPORT

With this Letter of Reference we confirm that

Themis Automation

worked as a subcontractor for HGDS Hoffbauer & Gebauer Datenservice GmbH in the scope of an automation project in the period from July 2017 to November 2017.

Themis Automation has a high level of expertise and has repeatedly demonstrated this within the joint project work. The work was carried out quickly and with the necessary care. Predetermined dates were always met. The project management was done to our highest satisfaction. Therefore, we can recommend Themis Automation at any time and hope for a continued successful cooperation.

About HGDS

Hoffbauer & Gebauer Datenservice GmbH (HGDS) specializes in the automation of production systems, software and database development as well as process simulation. In accordance with the customer requirements, both complete process control systems and single-cell complex database systems are individually configured and implemented for data acquisition.
